Family Conversations

This series supports whole-family learning around complex topics and ideas. Parents and caregivers will gain tools to open up dialogue with their children through in-gallery activities, then use collaborative art-making to make visible the topics they discuss. Take-home resources and activities support continued conversations. Activities are geared for kids ages 6–9; additional materials can be shared with siblings of all ages.

Citizenship / Civic Engagement

Saturday, October 26

10:30AM–noon

How do we teach children thoughtful citizenship? What are some ways kids can make their voices heard? Sometimes challenges we face seem too big to tackle. And standing up for what you know is right can be difficult or even scary. In the galleries, we'll explore how courageous actions have the power to make change. Then, we'll move to the studios, using our creativity to navigate change in new ways.

This workshop is presented in partnership with Doing Good Together, an organization dedicated to empowering families to help raise kind, compassionate, and engaged children.
