

Primary and Secondary Colors

Primary colors are a set of colors on the color wheel that cannot be separated into any other colors but can be used to create new colors. **The three primary colors are red, yellow, and blue.**

Secondary colors are a set of colors on the color wheel that are created by mixing two primary colors. These colors are placed in between the primary colors on the color wheel. **The three secondary colors are orange, green, and violet.**

Use the color wheel to fill in the blanks:

Red + yellow = _____

Yellow + blue = _____

Blue + red = _____

Yellow + _____ = green

Blue + _____ = violet

Red + _____ = orange

Choose three artworks and list the colors you see. Circle the primary colors and underline the secondary colors.

Sketch it!

List artist and title
